LOCATION	Phoenix, AZ		

AIR LINES hole in air line

This defect DOES NOT affect the safe operation of the motor vehicle.

Driver's Signature

LAST DVIR

Here you can see the previous DVIR for the vehicle that you have selected. If there was a defect noted by the previous driver it will show up under location. Once repaired a mechanic or manager will sign off that the repair has been fixed so that you know the vehicle is once again safe to operate.

After reviewing the DVIR click the box at the bottom and hit next.

By checking this box, I certify in accordance with 396.13(b), I have reviewed the last driver vehicle inspection report in accordance with 396.13(c) I certify that if defects requiring repair were listed on that report, I have verified the repair is

DAILY VEHICLE INSPECTION REPORT

This is where you create your DVIR for the vehicle. To add your location simply tap the GPS icon.

Enter the beginning mileage for the day.

If there is no issues with the vehicle select the box that "No Defect Was Found."

Sign your DVIR and select safe.

When a Defect is found select the gray box that says defect found.

- ☒ This defect affects the safe operation of the motor vehicle or is likely to result in its mechanical breakdown.
- ☐ This defect DOES NOT affect the safe operation of the motor vehicle and IS NOT likely to result in its mechanical breakdown.

VEHICLE DEFECTS

If a defect is found, determine if the defect affects the safe operation of the motor vehicle. (If you can operate the vehicle without injuring yourself or others, or if you will get a ticket for the defect then select this option.)

If the defect is a cosmetic issue, that does not need immediate repair to safely operate the vehicle then select the second option.

Scroll down to the defect category that best describes the defect and check the box. You can then add notes so that the mechanic knows what the specific problem is.
